## AN ICON FROM NEW YORK'S SKYSCRAPERS

The water cisterns on the top of New York skyscrapers are a popular icon on T-shirts and souvenirs – but not many New Yorkers know the water they drink and bathe in is stored in attic cisterns in the roof of their buildings. Buildings have to be in excess of six floors high to handle the cistern and pumping system. This craftsmanship lives on in New York as it's simpler to build on site at high heights with wood, than lifting up a steel or concrete cistern. Even when newly built they look weathered because the timber is not treated to avoid tainting the water. Wooden constructions are cheaper and have superior insulation properties than most modern alternatives. With a lifespan of 30 years, they can be assembled and operational within 24 hours, plus wooden constructions are particularly cultish.

## X1900

NEXT GENERATION'S  
WORKWEAR

In our latest collection, X1900, you'll find garments with modern design and high comfort. Without compromising on functionality and durability, of course. The materials we use are technologically advanced and meet our end users' requirements for comfort, durability and functionality. CORDURA® NYCO and CORDURA® DENIM are, despite their softness, pretty much impossible to wear out.

# BACK TO BASIC

Jeans are the classic workwear and a staple in Blåkläder's collections. Yet other high-tech fabrics have started to take over and made it a challenge to get the same high performance from denim. That's why we're more than a little proud to be able to launch our new denim jacket in CORDURA® DENIM, a material that is four times as strong as regular denim. The model is based on a classic, regular fit denim jacket that we updated with functional detailing. Besides being four times as durable, this jacket has CORDURA® reinforcements on the elbows, a zippered Napoleon pocket and good printing area on the back for logos.

# 1530

## OUR CLASSIC CRAFTSMAN TROUSERS

The 1530 series is Blåkläder's classic basic model, our own original trousers, or "501s." A simple but high-functional model, made in our best materials. Since the first collection was released in 1986, we've continuously improved and developed the 1530 series without changing its classic look. This year's collection is the series' twentieth, and we expect it to carry on as a favorite in every craftsman's wardrobe.

### 1530 TROUSERS

CORDURA®

# STRONG AS STEEL - SOFT AS COTTON

At Blåkläder, we know that one well crafted work garment can make a huge difference. Our classic 1530 craftsman pants in CORDURA® NYCO, a material that combines the durability of Cordura with the softness of cotton. CORDURA® NYCO is virtually impossible to wear out, thanks to the fiber blend of 75% cotton and 25% CORDURA®. If you want a trouser that combines superior comfort with durability, this is a really good choice.

# PROTECT YOUR KNEES

The vast majority of knee injuries occur due to poor ergonomics and jobs that are tough on your knees. Every year, 12,000 people undergo surgery to have a knee prosthesis put in. Others live with knee problems for many years. Most often, you just end up in strenuous situations without really having been able to anticipate it. The hands-down easiest solution for this is to remember kneepads. Blåkläder's kneepads are available in three different versions and are certified in accordance with EN 14404. All three provide maximum comfort, pressure distribution and nail protection, and can be placed in different heights in the kneepad pockets. You will find our kneepads on page 171 of the catalogue.

# HIGH-VISIBILITY CLOTHING WITH SAW PROTECTION

CORDURA®-  
REINFORCED

Saw protection trousers are something our customers frequently ask for. That's why we've now developed a saw protection collection consisting of trousers and chaps with a matching jacket. Both the trousers and the chaps are made of a lightweight and pliable material with six layers of saw protection in front of the leg protection, and Cordura® reinforcements on the right thigh and ends of the legs. Both are certified according to EN20471 protective clothing with high visibility, and EN381-5, protective clothing against chainsaw injuries. The matching jacket is made of durable beaver nylon that matches both trousers and is certified according to EN ISO 20471 protective clothing with high visibility.

# BETTER FLOW

Blåkläder's paintwear is the result of a longstanding dialogue and development with industry professionals across the globe. Thanks to them, we've been able to unite smart and in-demand functions with maximum quality and comfort. Our painter clothes are made of 100% cotton twill in double layers that protect your skin from paint splatters, unlike lower-quality paint pants, which often bleed through. If you like to wipe paint off on your legs, you should take an extra look at the 1510 and 1511 models, which also have extra reinforcement on the thighs. All clothing in the collection have a number of specially developed features, like ruler pockets, pockets for filler tools and brushes, and practical compartments for smaller tools.
